

**SANT ANIOL**  
NATURAL MINERAL WATER

VOLCANIC ORIGIN

SINCE 1993

# SANT ANIOL, WATER FROM THE VOLCANIC AREA OF LA GARROTXA

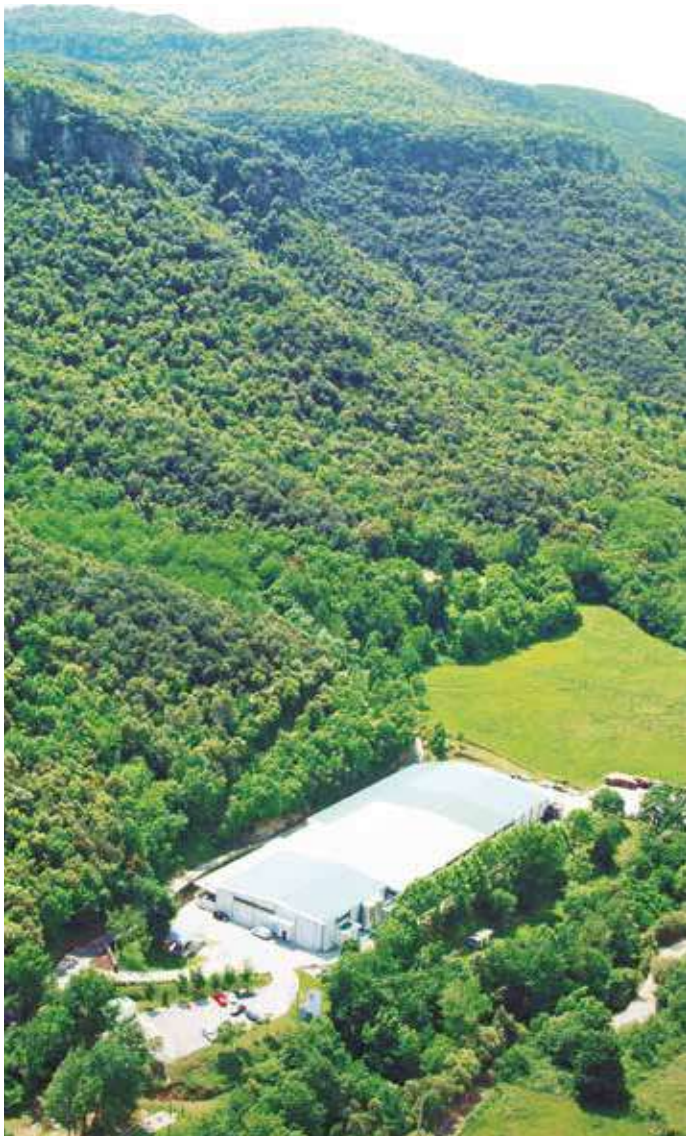

Inside the Natural Park of La Garrotxa, more than 150 meters deep, it is found the Sant Aniol source. Located in the middle of a lush volcanic landscape of sedimented lava and volcanic rocks.

## COMPANY

Founded in 1993, Sant Aniol is still a family-owned business. Its source is located in Sant Aniol de Finestres, a small village in La Garrotxa (Girona).

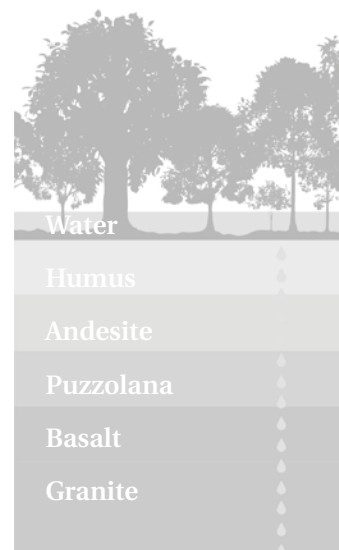

A slope located inside a natural park of sedimented lava and volcanic rock makes Sant Aniol a water of surpassing purity and singular qualities.

## ORIGIN

Filtered for thousands of years through volcanic rocks of Garrotxa's Natural Park. It provides a water free of contaminants, rich in minerals and with a high level of purity.

The volcanic energy of the land allows the water to absorb more minerals than other waters do.

# BRINGING THE PUREST WATER DIRECTLY FROM THE SOURCE TO YOUR TABLE

Bottling plant is located right next to the water spring, in small village called Sant Aniol de Finestres. This privileged location provides an unaltered purity water.

## SUSTAINABILITY

Sant Aniol cares about the environment.

For years, we have been working consciousness to preserve it. We work on the optimization and innovation of the materials we use for our packaging, minimizing the environmental impact.

Since 2018, the energy we use at our plant is **100% green**. In addition, we protect our source of any potentially contaminating activity with a security perimeter of 275 hectares.

Sant Aniol's sustainability policy makes us work tirelessly to make this world a better place to live in.

## QUALITY

Our strict quality control and our production process exempt of human contact, allows us to guarantee that both the extraction and bottling process are free of contaminants, so that the natural mineral water we offer on the market is in its purest state.

# SANT ANIOL WATER BENEFITS

## APPROPRIATE FOR THE WHOLE FAMILY

Sant Aniol water has an optimal mineral composition thanks to its natural filtering through layers of volcanic rock. It is a balanced water ideal for the whole family.

## BENEFICIAL FOR ATHLETES

Drinking water before, during and after doing sports is key to recover the water and minerals our body lost. Magnesium and calcium help to relax and contract muscles properly.

## ADEQUATE FOR CHILDREN

To avoid overloading children below the age of 1 with sodium, it is recommended to give them water that contains less than 20 mg/l. Sant Aniol is low in sodium (6.8 mg/l) and it is suitable to prepare infant food.

## INDICATED FOR THE ELDERLY

The amount of calcium in Sant Aniol water is excellent for all ages and necessary for optimal functioning of heart and muscles, as well as to reinforce our bones as our body begins to age.

## VOLCANIC ORIGIN

# A PRODUCT FOR EVERYBODY

## MINERALIZATION

Sant Aniol water presents a balanced and unique mineral composition. The combination of its elements helps to facilitate the purification of our body. Besides, it helps prevent urinary tract infections and reduce uric acid and cholesterol. Low sodium content makes it suitable for low sodium diets and treatments to control hypertension.

DRY RESIDUE (180°)

**323 mg/l**

CALCIUM

**91,3 mg/l**

MAGNESIUM

**17,5 mg/l**

SODIUM

**6,4 mg/l**

### mineralization

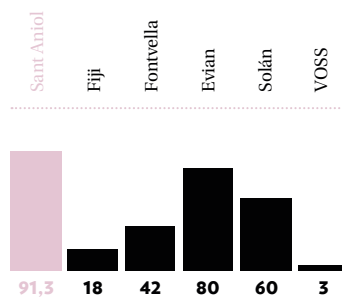

MINERAL WATER

Sant Aniol is a mineral rich water that promotes health and wellbeing of people, since volcanic rocks act as a source of minerals.

### calcium

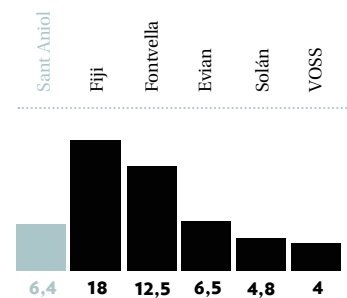

MINERAL WATER

Sant Aniol is a calcium-rich water which promotes healing and the development of bone structure. Highly recommended for teenagers, pregnant women and nursing mothers. Calcium also has beneficial effects to reduce hypertension.

### sodium

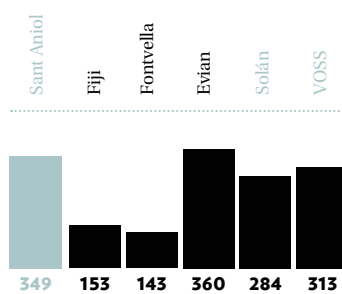

MINERAL WATER

Sant Aniol is low in sodium. Particularly suitable for low sodium diets and to help to reduce hypertension.

### bicarbonate

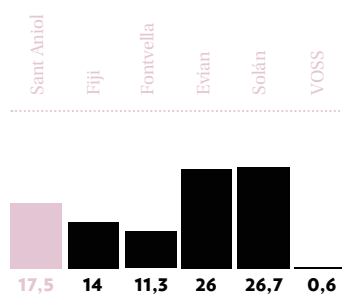

MINERAL WATER

Sant Aniol is a water rich in bicarbonate, promoting gastric digestion and facilitating intestinal transit. Alkaline water prevents the formation of kidney stones.

### magnesium

MINERAL WATER

Sant Aniol is a magnesium-rich water, recommended for the treatment of calcium stones and related to the proper functioning of the nervous system.

### sodium

SPARKLING MINERAL WATER

Sparkling water stimulates diuresis and facilitates the elimination of uric acid and cholesterol.

## PREMIUM GLASS – ROCKS

VOLCANIC ORIGIN

# PREMIUM GLASS – ROCKS

A unique range especially designed for Sant Aniol, where the bottles are shaped resembling the rocks that have filtered water for thousands of years, the volcano makes its appearance at the bottom of the bottle.  
Contains 20% recycled glass.

500 DROPS

“Long live  
plastic!”

VOLCANIC ORIGIN

# 500 DROPS

We are proud to present 500 Drops,  
the first natural mineral water on the Iberian Peninsula  
bottled in bottles made of 100% recycled plastic.

We also decided to change the plastic wrapping of our six pack  
for recycled cardboard to be coherent with our commitment  
with sustainability.

We see this as one more small step towards a healthier planet.  
Will you join us on our journey?
